Sarah Reilly

UX/UI Designer

Cincinnati, Ohio · hello@sarahmreilly.com · sarahmreilly.com · linkedin.com/in/sarahloebker

SUMMARY

UX/UI designer who builds design systems, with nearly eight years in digital product work. Started as a React front-end developer and moved into design, so I design in terms developers can build from. Writes product requirements, ships component libraries and handoff tickets, and uses AI tools every day in design and development workflows.

EXPERIENCE

Senior UX/UI Designer, Promevo

July 2022 – November 2026

- **Multi-module SaaS admin console (about four years, with one other designer and the dev team):** built a two-layer component system and token set on top of Material UI, and one consistent container for each kind of task: full-page steppers, a single details drawer, and modals only where they fit.
- Redesigned the console's most logic-heavy feature, the rule builder, around how people think about rules. Created a developer documentation hub with token data and component specs, and a reusable workflow that turns Figma screens into spec docs and dev tickets.
- **AI-first construction platform (about a year, concept to pilot-ready):** set product direction and shaped the UX and workflows, ran guided tours with the pilot team, and wrote the PRDs and 100+ feature tickets the developers built from. A partner designer did the final Figma design.
- Moved from React Developer/Designer to Senior UX/UI Designer, learning Figma on the job. Uses Claude Code, Figma Make and Gemini for concepts, research and requirements.
- Also designed the layout of a document-portal front end for a health organization.

Consultant / Associate Consultant, Sogeti

December 2018 – June 2022

- Developed front-end designs and components for projects for a global consumer-goods client.
- Built in React alongside front-end and back-end developers, partnered directly with client stakeholders, and improved the front-end design of multiple client products.

Web and Digital Media Intern, Great Parks of Hamilton County

July 2018 – September 2018

- Helped update the main Great Parks website and supported events at the parks.

EARLIER EXPERIENCE

- **Florist, Petals-N-Glass Boutique (2005 – 2020):** designed arrangements for weddings, funerals and events, and trained new employees.
- Flight Attendant, ExpressJet Airlines (2014 – 2016); Public Relations Representative, Chambers Medical (2016); Marketing & Promotions Intern, Clear Channel (2012).

SELECTED PROJECTS

- **Foxed** (reading-tracker app, designed and built solo), **Reilly Plumbing** and **Petals-N-Glass** (small-business sites): see sarahmreilly.com/work.

SKILLS

Design	Design systems and tokens, Figma, Material UI, PRDs, wireframing, prototyping, branding guides, Jira
AI	Claude Code, Figma Make, Gemini, integrating AI into design and development workflows
Front-end & web	HTML, CSS, React, Wix, WordPress, Canva

EDUCATION

Associate of Arts, Web & Multimedia Design, Cincinnati State Technical and Community College (2017 – 2018)

Bachelor of Arts, Public Relations, Northern Kentucky University (2008 – 2012)
